Please consider providing support for Global Polio Eradication

The global eradication of polio, a disease that cripples a child for life, is the top priority of Rotary International.

Rotary International has been the leader in this historic public effort since 1985, when polio infected more than 350,000 children every year in over 125 countries. Rotary's decades of advocacy, fundraising, education and immunizations have reduced worldwide polio cases by more than 99.9 percent.

A polio free world is within our grasp, but we're not done yet. We still need funds to continue immunizations and surveillance efforts. Your generous support will help Rotary and its partners reach every child with the polio vaccine.

Please place your donations in the collection boxes in the bar area of the cinema or send them to:
